

RE: Liikenne- ja viestintävaliokunta keskiviikko 11.09.2024 klo 11.35 /
HE 80/2024 vp / Asiantuntijapyyntö

Hei,

Air BP Finland Oy:ltä ei valitettavasti ole tulossa henkilöä paikanpäälle.

Tässä kirjallinen lausuntomme;

How Air bp Finland will take care of SAF requirements.

All routes available for compliance will be considered by bp. The mandate is anticipated to obligate bp against a % of its total relevant jet fuel sales from 1st Jan 2025 on union airports, to be met through an allowed compliance route. This will include providing renewable content (SAF) across the duty point during each calendar year. Bp will comply as per these rules but will retain discretion on the physical quantities of SAF delivered at any one point in time.

Terveisin, Mikko
